Key Terms

Participatory budgeting (PB) is a democratic process in which community members decide how to spend part of a public budget.
(The Participatory Budgeting Project)

Health equity is the state in which everyone has a fair and just opportunity to attain their highest level of health.
(Centers for Disease Control and Prevention)

Key Terms

Social Determinants of Health

Social Determinants of Health (SDOH) are the conditions in the environments where people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks.

Participatory Budgeting Cycle

DESIGN THE PROCESS

A steering committee that represents the community creates the rules and engagement plan.

BRAINSTORM IDEAS

Through meetings and online tools, residents share and discuss ideas for projects.

DEVELOP PROPOSALS

Volunteer "budget delegates" develop the ideas into feasible proposals.

FUND WINNING PROJECTS

The government or institution funds and implements the winning ideas.

VOTE

Residents vote on the proposals that most serve the community's needs.

Benefits of PB

Recommendations for Success

- Build infrastructure to support community engagement
- Limit funding restrictions
- Ensure that voting processes are transparent and inclusive
- Provide appropriate compensation
- Be upfront about strengths and limitations of PB
- Provide administrative capacity-building and training opportunities
